Early Childhood Education Infant and Toddler Program (ECE-IT)

Program Description	Designated by the Ministry of Advanced Education Private Training Institutions Branch (PTIB) and recognized by the Ministry of Children and Family Development, ECE Registry, the program provides comprehensive learning in various early childhood philosophies in infant and toddler level and practice, including knowledge in advanced child development and observation, health and safety, reflective teaching, program planning and administration in early childhood field infant and toddler level. The practicum component provides the student with a supervised teaching and learning experience and a period of observation, internalization, and further study, in order to bring together the theory and practice of infant and toddler education.			
Learning Objectives	At the end of this program you will have developed the necessary knowledge and understanding of various philosophies within the early childhood field infant and toddler level and the practice experience to become a competent infant and toddler educator.
